SASCON'12

Safety Performance Indicators (SPIs)
„Definition and Measurement“

Peter Müller – Director General of FOCA

Looking back….

- **SASCON‘07:**
  „Workshops on Safety Culture“
- **SASCON‘08:**
  „The Implementation of Safety Management Systems“
- **SASCON‘09:**
  „Workshop on SMS-implementation“
- **SASCON‘10:**
  „SMS – The Art of Performance“
- **SASCON‘11:**
  „Safety Culture Development“

Finish line crossed?

Anything missing?

SPIs….?

- Integral and vital part of a global and efficient Safety Management System (SMS)
- Essential for the measurement of the effectiveness of Safety Management processes and for Decision making
- Feedback to management which allows timely actions to improve production processes and aviation safety

☞ **INVALUABLE INSTRUMENT FOR MANAGEMENT**

Objectives of today…..

- Common understanding of the basic concept
- Identification of benefits and challenges
- Recognition of the importance for decision makers
- Exchange of knowledge
- Sharing of experience
- Safety Performance Measurement in a wider context
