Introduction

The following list defines the flights/activities of special national interest (list HLAPB), which enjoy a higher priority for specific purposes and at certain times. In individual cases, separate requirements are made to define the priority more precisely.

Defined Airspace Status and Airspace Priority are to be understood as follows:

<i>Airspace Status AMC</i>	Airspace is designated for military (if a mission is planned) or civilian (if no mission is planned) use with priority defined as: <i>Airspace Priority MIL</i> – Priority for the use of the airspace is with MIL or <i>Airspace Priority CIV</i> – Priority for the use of the airspace is with CIV
<i>Airspace Status MIL</i>	Airspace is designated primarily for military use (in general independent of mission planning).
<i>Airspace Status CIV</i>	Airspace is designated primarily for civilian use.

ASM Decisions

The following airspace reservation requests have been approved for pre-allocation during ASM Level 1 by BP ET or for consideration to the best extent possible during ASM Level 2 by SAF:

1-16	TV Relay Flights related to cycling events	All special flights connected to the cycling events (e.g., Tour de Romandie, Tour de Suisse, Giro d'Italia, Tour de France) have priority over other requesters of special flights in controlled airspace and over civil IFR flights, but not military training.	<i>As soon as special flight request is received SFO shall inform SAF if a TRA is affected.</i>
1-17	PC7T ¹ PS ²	According to the coordination meeting PC7T/PS – Skyguide – Airports – FOCA	
1-18	Swisstopo	Swisstopo flights have priority over other special flights within Swiss territory, excluding FCS flights with the purpose of flight inspection of ILS, as described in 1-19. This includes contracted companies assigned to execute tasks on behalf of Swisstopo which shall announce this in their SFO request(s). Swisstopo shall provide the SFO the names of contracted companies and information regarding the geographical extent for each contract.	<i>Swisstopo and FCS shall coordinate their planned flights in order to reduce simultaneous and conflicting activities.</i>
1-19	Flight Calibration	FCS flights shall be planned in such a way to limit the impact on CIV and MIL traffic as much as possible. FCS flights with the purpose of flight inspection of ILS have priority over any other special flight within Swiss territory. In exceptional and unforeseen (not plannable) circumstances, which would lead to infrastructure becoming unserviceable, these flights fall under flights of special national interest (Prio 2).
