Grand total flight hours:	PIC hours:	Copi hours:	IFR total hours: Simulator hours:
Employed as pilot by:			

AMC2 ORA.ATO.125 Training programme

(k) Aeroplane training with FFS

(1) with the exception of courses approved for ZFTT, certain training exercises normally involving take-off and landing in various configurations should be completed in the aeroplane rather than an FFS. **For MPAs where the student pilot has more than 500 hours of MPA experience in aeroplanes of similar size and performance, these should include at least four landings of which at least one should be a full-stop landing**, unless otherwise specified in the OSD established in accordance with Regulation (EC) 1702/2003, when available. **In all other cases the student should complete at least six landings.** This aeroplane training may be completed after the student pilot has completed the FSTD training and has successfully undertaken the type rating skill test, provided it does not exceed 2 hours of the flight training course.
