Reasons for granting it

Urgent unforeseeable circumstances

The COVID-19 outbreak has resulted in drastic travel restrictions and closure of borders between a majority of States.

- Holders of Part-FCL pilot licences who are required both to perform their licence proficiency check (LPC) to revalidate the validity period of their type and instrument ratings and to comply with the applicable operator recurrent training and checking requirements (OPC) in order to continue to exercise their privileges on behalf of their operator are not able to timely reach or gain access to flight simulation training devices (FSTD) or examiners, or to perform training and checking on the aircraft (if applicable) to complete the necessary training and checking. Additionally, these pilots are not able to timely get access to an examination for maintaining their language proficiency. This would result in expiry of their ratings and the language proficiency endorsement.
- Holders of Part-FCL instructor and examiner certificates who are required to perform an assessment of competence to revalidate their instructor or examiner privileges in order to continue to exercise their training and checking privileges on behalf of their operator are not able to timely reach or gain access to FSTD to complete the necessary assessment of competence. This would result in expiry of said certificate.
- Holders of Part-MED Class 1 or Class 2 medical certificates

who are required to undergo a recurrent medical examination to revalidate their Class 1 or Class 2 medical to continue to exercise their licence or certificate privileges on behalf of their operator are not able to timely reach or gain access to an aeromedical examiner (AME) or aeromedical centre (AeMC) to complete the necessary medical examination. In addition, in many cases medical examiners have been reassigned to support the COVID-19 outbreak in their State. This would result in expiry of said certificates.

- Holders of cabin crew attestations issued in accordance with Annex V (Part-CC) to Regulation (EU) 1178/2011 who are required to undergo a recurrent training, in accordance with the applicable requirements of Part-ORO, are not able to timely reach or gain access to training facilities.

- Holders of a cabin crew medical report as per Annex IV (Part-MED) to Regulation 1178/2011 who are required to undergo a recurrent aero-medical assessment, in accordance with the applicable requirements of Part-MED, are not able to undergo aero-medical assessment.

- Holders of air traffic controller licences as per Regulation (EU) 2015/340 experience difficulties in both the use of synthetic training devices (STDs) to complete their scheduled recurrent training / assessment activities and the access to examination for maintaining their language proficiency.

- Holders of air traffic controller licences and associated on-the-job-training instructor and practical instructor endorsements who are required to complete refresher training in order to continue to exercise their training and assessment privileges are not able to complete their scheduled refresher training activities.

- Holders of Class 3 medical certificates issued in accordance with Annex IV (Part-ATCO.MED) to Regulation (EU) 2015/340 who are required to undergo a recurrent medical examination to revalidate their Class 3 medical certificate to continue to exercise their licence privileges on behalf of their air navigation service provider (ANSP) are not able to timely reach or gain access to an AME or AeMC to complete the necessary medical examination. In addition, in many cases medical examiners have been reassigned to support the COVID-19 outbreak in their State. This would result in expiry of said certificates.

- Holders of aeromedical examiner certificates as per (Part-MED) to Regulation 1178/2011 and Annex IV (Part-ATCO.MED) who are required to perform medical examinations of the applicants for a Class 1 or Class 3 medical certificate in order to revalidate their relevant AME privileges are not able to timely reach or gain access to their competent authorities. This would result in expiry of said certificates.

- Holders of aircraft maintenance licences issued in

		<p>accordance with Part-66 are not able to timely revalidate their licence.</p>
