Suspected Unapproved Parts Notification

Swiss Federal Office for Civil Aviation (FOCA) has been informed by the OEM of a suspected forgery of a Flammability Certificate.

The parts listed below are therefore not eligible for installation in an aircraft.

Description	Part Number (P/N)	Batch Number
PVC Carpet protector with hooks	991142	F0105077770342

If any of these parts have been installed in an aircraft, they must be replaced immediately with airworthy parts. If any of these parts are discovered in stock, they are not to be used on aircraft before it has been ascertained that they conform to the aircraft type design.

It is also possible that other parts with a forged/false flammability certificate from Lantal Textiles AG exists. Please check that the approval reference of the organization is correct (CH.21G.0012) on flammability certificates showing the Lantal Textiles AG logo.

Please report back to this office, to the following contact details if any actions has been taken.

Bundesamt für Zivilluftfahrt (BAZL)
