

## Renewal of multi-pilot helicopter/IR type rating

EASA Annex I Subpart H  
EASA Annex I Appendix 9  
AMC1 FCL.740 (b) (1)  
AMC1 FCL.625 (c)

### After the proficiency check the following documents have to be sent to FOCA:

- Original document (all pages), completed and signed by training organisation, candidate and examiner
  - FOCA form 61.530
  - or other appropriate EASA form issued by the responsible NAA
- FOCA form 61.531 or training completion certificate containing a description of the training program (or the confirmation of “continuous activity”: logbook copies and copy of the relevant valid non-EASA licence)
- Copies of the relevant pages of the logbook signed by instructor(s)
- Copy of the EASA approval certificate issued for the training organisation showing the approved training courses (not required for Swiss training organisations)
- Copy of the EASA simulator certificate if applicable (not required for Swiss simulators)
- Copy of the EASA examiner certificate and licence (not required for Swiss examiners)
- Copy of the valid EASA medical certificate (not applicable for holders of Swiss medical certificate)

**Foreign examiners have to follow the procedure in EASA published “Examiner Difference Document” (EDD).**

**Examiner handentries into the licence are prohibited.**

**Please send the documents to:**

FOCA, Federal Office of Civil Aviation  
Safety Division – Flight Operations  
Flight Personnel  
3003 Bern

## **AMC1 FCL.740(b)(1) Validity and renewal of class and type ratings**

### **RENEWAL OF CLASS AND TYPE RATINGS: REFRESHER TRAINING AT AN ATO, A DTO OR WITH AN INSTRUCTOR**

(a) The objective of the refresher training is for the applicant to reach the level of proficiency necessary to safely operate the relevant type or class of aircraft. The amount of refresher training needed should be determined on a case-by-case basis by the ATO, the DTO or the instructor, as applicable, taking into account the following factors:

- (1) the experience of the applicant;
- (2) the amount of time elapsed since the privileges of the rating were last used;
- (3) the complexity of the aircraft;
- (4) whether the applicant has a current rating on another aircraft type or class; and
- (5) where considered necessary, the performance of the applicant during a simulated proficiency check for the rating in an FSTD or an aircraft of the relevant type or class.

It should be expected that the amount of training needed to reach the desired level of proficiency will increase analogously to the time elapsed since the privileges of the rating were last used.

(b) After having determined the needs of the applicant, the ATO, the DTO or the instructor, as applicable, should develop an individual training programme based on the initial training for the rating, focusing on the aspects where the applicant has shown the greatest needs.

(c) With the exception of refresher training for ratings for aircraft referred to in point FCL.740(b)(2)(i), refresher training should include theoretical knowledge instruction, as necessary, such as for type-specific system failures in complex aircraft. The performance of the applicant should be reviewed during the training and additional instruction should be provided to the applicant, where necessary, to reach the standard required for the proficiency check.

(d) After successful completion of the training, the ATO, the DTO or the instructor, as applicable, should issue the applicant with a training completion certificate or another document specified by the competent authority, describing the evaluation of the factors listed in (a), the training received, and a statement that the training has been successfully completed. The training completion certificate should be presented to the examiner prior to the proficiency check. Following the successful renewal of the rating, the training completion certificate or the other document specified by the competent authority and the examiner report form should be submitted to the competent authority.

(e) Taking into account the factors listed in (a) above, the ATO, the DTO or the instructor, as applicable, may also decide that the applicant already possesses the required level of proficiency and that no refresher training is necessary. In such a case, the certificate or other documental evidence referred to in (c) above should contain a respective statement including sufficient reasoning.'

## **AMC1 FCL.625(c) IR — Validity, revalidation and renewal**

### **RENEWAL OF INSTRUMENT RATING AT AN APPROVED TRAINING ORGANISATION (ATO): REFRESHER TRAINING**

(a) The objective of the refresher training at an ATO is to reach the level of proficiency needed to pass the instrument rating proficiency check, as described in Appendix 9, or the instrument rating skill test as described in Appendix 7 to Part-FCL, as applicable. The amount of refresher training needed should be determined by the ATO on a case-by-case basis, taking into account the following factors:

- (1) the experience of the applicant;
- (2) the amount of time elapsed since the privileges of the rating were last used;
- (3) the complexity of the aircraft;
- (4) whether the applicant has a current rating on another aircraft type or class; and
- (5) where considered necessary, the performance of the applicant during a simulated proficiency check for the rating in a flight simulation training device (FSTD) or an aircraft of a relevant type or class.

The amount of training needed to reach the desired level of competency should increase with the time elapsed since the privileges of the rating were last used.

(b) Once the ATO has determined the needs of the applicant, it should develop an individual training programme based on the ATO's approved course for the rating and focusing on those aspects where the applicant has shown the greatest needs. Theoretical-knowledge instruction should be included, as necessary. The performance of the applicant should be reviewed during the training, and additional instruction should be provided where necessary to reach the standard required for the proficiency check.

(c) After successful completion of the training, the ATO should provide a training completion certificate to the applicant, which describes the evaluation of the factors listed under (a) above and the training received, and includes a statement that the training has been successfully completed. The training completion certificate should be presented to the examiner prior to the proficiency check. Following the successful renewal of the rating, the training completion certificate and examiner report form should be submitted to the competent authority.

(d) Taking into account the factors listed in (a) above, an ATO may also decide that the applicant already possesses the required level of proficiency and that no refresher training is necessary. In such a case, the certificate or other documental evidence referred to in point (c) above should contain a respective statement including sufficient reasoning.
