Wichtige Mitteilung:

Die nachstehende Liste erfasst Lufttüchtigkeitsanweisungen (LTA), die bis zum auf Seite A vermerkten Ausgabedatum veröffentlicht wurden. Berücksichtigt sind jene Baumuster, die aktuell im Schweizerischen Luftfahrzeugregister eingetragen sind. Die Liste ist ein Hilfsmittel und dient zur übersichtlichen Darstellung der für ein Baumuster in Frage kommenden LTA. Verbindlich sind die Angaben der einzelnen LTA.

Die bis zum 31. Dezember 1982 erschienenen LTA wurden nach einem anderen System veröffentlicht. Diese LTA können als Sammelausgaben in einem Dokument heruntergeladen werden und tragen aus datenbanktechnischen Gründen eine fiktive HB-1982-XXX Nummer. Die massgebenden einzelnen LTA-Nummern vor 1983 sind den entsprechenden Dokumenten zu entnehmen.

Diese nach altem System veröffentlichten LTA sind jedoch immer noch rechtsgültig und anwendbar, sofern sie nicht inzwischen durch Anweisungen nach neuem System ersetzt worden sind.

english

Important Notice:

The following list is a summary of Airworthiness Directives (AD), which were published up to the issue date on page A of this summary. It takes into account those aircraft models which are currently registered in the Swiss aircraft registry. This list is intended to be an aid in determining which ADs are applicable to a particular model. Applicability as stated in the individual ADs have precedence.

ADs which were issued prior to 31 December 1982 were published under a different system. These ADs can be downloaded as summaries in one document. For data base-technical reasons this AD-summaries carries a fictitious HB-1982-XXX number. The determining individual AD-numbers prior 1983 are to be inferred from the appropriate documents.

These after the old system published ADs are still valid and applicable, unless they have been superseded in the meantime by ADs after the new system.

français

Communication importante:

La liste ci-après répertorie les consignes de navigabilité (CN) publiées avant la date figurant sur la page A. Seuls les types d'aéronef inscrits actuellement dans le registre matricule suisse des aéronefs sont pris en compte. La liste se veut une aide et vise à présenter une vue d'ensemble des CN pertinentes pour un type d'aéronef donné. Les données des CN ont un caractère contraignant.

Jusqu'au 31 décembre 1982, les CN étaient publiées selon un autre système que celui en vigueur aujourd'hui. Elles seront disponibles en ligne, rassemblées dans un seul document électronique. Pour des raisons d'ordre technique, ces CN portent un numéro fictif de forme HB-1982-XXX. Leur numéro effectif apparaît cependant dans le document correspondant.

Les CN antérieures à 1983 conservent leur validité et sont applicables pour autant qu'elles n'aient pas été remplacées dans l'intervalle par des consignes éditées selon le nouveau système.

italiano

Comunicazione importante:

Il seguente elenco comprende le Direttive sulla Navigabilità (DN), pubblicate fino alla data indicata sulla pagina A. Sono presi in considerazione i tipi attualmente registrati nella matricola svizzera degli aeromobili. L'elenco è uno strumento che serve ad illustrare in modo chiaro le DN applicabili per un determinato tipo di aeromobile. Le indicazioni contenute nelle singole DN sono vincolanti.

Fino al 31 dicembre 1982 le DN sono state pubblicate secondo un altro sistema. Queste DN potranno essere scaricate in forma di un documento riassuntivo e, per ragioni tecniche di gestione della banca dati, portano il numero fittizio HB-1982-XXX: i numeri effettivi delle singole DN antecedenti il 1983 sono riportati nei corrispondenti documenti.

Queste DN pubblicate secondo il vecchio sistema sono tuttavia ancora legalmente valide e applicabili, nella misura in cui non siano state sostituite da altre pubblicate secondo il nuovo sistema.

Mitteilung an die Luftfahrzeug-Halter:

deutsch

Sehr geehrte Damen und Herren

Ab dem 1. Januar 2009 ist der Halter verpflichtet, sich aktiv und regelmässig über neu erschienene LTAs für Luftfahrzeug, Triebwerk(e), Propeller, Luftfahrzeugteile und Ausrüstungen zu informieren.
Wir ersuchen Sie, anhand der nachstehenden Auflistung zu prüfen, ob die geforderten Massnahmen fristgerecht durchgeführt wurden.
Da es dem Bundesamt nur teilweise bekannt ist mit welchen Zubehörteilen Ihr Luftfahrzeug ausgerüstet ist, möchten wir Sie besonders auf die im Abschnitt "Zubehör" aufgeführten LTA hinweisen.
Wir bitten Sie, allfällige Fragen in diesem Zusammenhang direkt mit Ihrem Unterhaltsbetrieb abzuklären.

Alle LTAs können auf der BAZL-Webseite heruntergeladen werden.

Notice to Aircraft Holders / Operators:

english

Ladies and Gentlemen

Starting from 1st January 2009 the operator is obligated to inform himself actively and regulary about recently issued ADs for aircraft, engines, propellers and appliances.
We suggest that you check the enclosed summary to determine if your aircraft is in compliance with all applicable ADs.
As the FOCA can be only partially aware of which equipment is installed on a particular aircraft, we suggest that you pay particular attention to the ADs listed in the "Appliance" section. Please direct any questions you may have regarding appliance ADs to your aircraft maintenance organization.

All ADs can be downloaded on the FOCA webpage.

Communication aux exploitants d'aéronefs:

français

Mesdames et Messieurs

Dès le 1er janvier 2009, l’exploitant sera tenu de s’informer régulièrement de la publication des CN les plus récentes concernant les aéronefs ainsi que les moteurs, hélices, pièces d’aéronef et équipments de son aéronef.
Nous vous prions de vérifier, selon la liste ci-jointe, que les CN nécessaires vous soient bien parvenues et, que les mesures prescrites aient été exécutées dans les délais impartis.
Etant donné que l'OFAC ne tient pas à jour un registre de tous les accessoires équipant votre aéronef, nous attirons votre attention sur les CN mentionnées au paragraphe "accessoires".
Nous vous saurions gré de vous adresser directement à votre entreprise d'entretien pour tout renseignement complémentaire.

Toutes les CN peuvent être téléchargées sur la page d’internet de l’OFAC.

Comunicazione agli esercenti di aeromobili:

italiano

Signore e Signori

A partire dal 1. Gennaio 2009, l’esercente sarà tenuto ad informarsi regolarmente sulla pubblicazione di nuove Direttive sulla Navigabilità (DN) per aeromobili, motori, eliche, parti e equipaggiamenti applicabili al proprio aeromobile.
Li preghiamo di verificare, secondo l'elenco allegato alla presente, se il vostro aereo è conformemente a tutto il DN necessari.
Dato che l'UFAC non è al corrente di tutti gli accessori che equipaggiano il vostro aeromobile, vi rimandiamo al riguardo alle DN menzionate al paragrafo "accessori".
Vi saremmo estremamente grati se poteste rivolgervi direttamente alla vostra impresa di manutenzione per ulteriori ragguagli in merito.

Tutto il DN può essere teletrasmesso sulla pagina d'internet del UFAC.

Reference List

Due to the frequent changes of corporate responsibility, the manufacturer's name / TC-holder used in an airworthiness directive (AD) may be different than the names used in the AD-summary. The following list is intended as an aid in cross-referencing manufacturers. It may not be considered comprehensive. Additions or corrections should be notified to the address on the cover page.

Aircraft Manufacturer	listed under: (TC-holder)
Agusta; Agusta Westland	Leonardo S.p.A. Helicopters
Alexander Schleicher TOP powered sailplanes	Fiberglas-Technik Rudolf Lindner GmbH & Co.KG
Alpla-Werke Flugzeugbau (Nitsche)	M&D Flugzeugbau GmbH & Co.KG
American Aviation / Grumman American	True Flight Holdings LLC
Aviat Inc	Sky International Inc.
Beechcraft Corporation	Textron Aviation Inc.
Bellanca Aircraft Corporation (Champion)	American Champion Aircraft Corp.
Bölkow 207, 208, 209	Airbus Defence and Space GmbH
Bombardier Inc. (BD-500)	Airbus Canada Limited Partnership
British Aerospace (BAe 125)	Textron Aviation Inc.
CAP Aviation	CEAPR
Cessna Aircraft Company (most models)	Textron Aviation Inc.
Christen Industries	Sky International Inc.
Columbia Aircraft Manufacturing	Textron Aviation Inc.
Dornier Do 27	General Atomics AeroTec Systems GmbH
Douglas Aircraft Company (DC-3)	Boeing / The Boeing Company
Dyn'Aero SA	SE AVIATION AIRCRAFT
Eurocopter	Airbus Helicopters
Eurocopter Deutschland GmbH	Airbus Helicopters Deutschland GmbH
FFA (AS 202 Bravo)	ACC Columbia Jet Service GmbH
Grob (except G 109)	Fiberglas-Technik Rudolf Lindner GmbH % Co. KG
Gyroflug	FFT GmbH
Hoffmann Flugzeugbau	Diamond Aircraft Industries GmbH
Israel Aircraft Industires (Gulfstream)	Gulfstream Aerospace LP
